

MOH 1200

Music
On Hold

The MOH 1200 is a MP3 music on hold player which can be connected to the external music on hold port of any phone system to provide messages to callers put on hold. The MOH 1200 plays audio files recorded in .mp3 file formats. Audio files can be easily downloaded in to the unit's internal memory via its built-in USB port. The unit has 32 MB of on board Flash Memory which can store up to 60 minutes of high quality audio content.

Optionally the unit also comes with Secure Digital (SD) Card interface which can accept SD cards up to 1 GB capacity, thus enabling the unit to play 16 hours of high quality audio for overhead music/messages used in retail stores (store casting applications).

MOH1200 supports:

- MP3 audio playback
- USB port for MP3 file download
- Connects to any phone system
- 32 MB of internal flash memory
- SD card support up to 1 GB
